

BUILDING GENERATIONAL INSTITUTIONS DEVELOPMENT TRUST

ABOUT BGI

BGI is a service oriented voluntary organisation started in 2016 with the objective of helping and empowering the Youths, and the disadvantaged in the community. We intend to enhance the lives of the youths and the disadvantaged through our various initiatives.

VISION

To establish a trust for the purposes of spearheading and coordinating activities to help, the youths and the disadvantaged and source individuals or entities from all over the world willing to participate in developmental projects in Zimbabwe.

ALREADY RUNNING PROJECTS IN NEED OF SUPPORT

1. PROJECT PASS YOUR "O" LEVEL

This seek to offer another chance to those disadvantaged youths within society who did not get an opportunity to complete their ordinary level education. For several reasons we have young people failing to complete this level of education which is the level which qualifies them into tertiary education and employment in the context of Zimbabwe. We therefore have a crush program to prepare them for the exams, we have a group of teachers who are volunteers. These teach the kids at their free times. We rent out church structures in different communities as per specific needs.

CHALLENGES AND AREAS IN NEED OF SUPPORT

1. **Payment of exam fees for enrolled kids. At present Most of these kids depend on well-wishers.**
2. **An Allowance to motivate the teachers.**

2. GIRLS AND BOYS MENTORING PROJECT

Given the rise in the HIV scourge, drug abuse and internet crimes and the general bad influence society has become this project is very crucial in raising a breed of young men and women who are destiny conscience and focused about real issues of life. We do seminars, camps and conferences to address issues affecting the young people in their time. We work with experts from different facets of life to bring the balance in our empowerment agenda.

CHALLENGES AND AREAS IN NEED OF SUPPORT

1. **A fund to cover mentees recruitment costs.**
2. **Meeting expenses.**
3. **An allowance for mentors**

3. YOUTHS AND SPORT INITIATIVE

This is the section that looks on the aspect of talent and skill, they are some youths who may not be academically given but have a talent in some sport. We seek to take the youths from the streets, from drug temptations and idleness by keeping them occupied with sports activity. We create opportunity for such through various sports teams we have ie soccer ,netball, volleyball etc. we are part of a sports organisation (Bulawayo Christian League) which is an affiliate of ZIFA the governing body which looks after football. We however have various sporting disciplines in BCL, so we utilise such opportunities.

CHALLENGES AND AREAS IN NEED OF SUPPORT

1. **First aid kit and Uniforms**
2. **Player refreshments.**
3. **Technical team allowance**

4. YOUTHS BUSINESS PROJECTS

To bring economic empowerment to the youths and the disadvantaged we seek and source funding and partnership with various projects. The areas we deal with is market gardening, poultry and Flea market and cross boarder entrepreneurship. Youths are trained holistically on all areas of business and once ready funding is released for them to start trading. We continually monitor and evaluate progress of all projects initiated by BGI.
