

# FALY'S FAMILY NEWS - January 2011-December 2011

During this year, we experience two facets of life. On the one hand we lost Clara's 2 brothers and 1 of my sister in law. On the other hand we were very blessed by God's grace. It was hard to focus on God's faithfulness in these difficulties and challenges but we still feel God's presence

For years we, as a family, didn't have any holidays together. Praise God, this year we were able to get full holidays of 2 weeks along the beautiful beach of Madagascar. Nice hotel, nice food, nice fellowship,

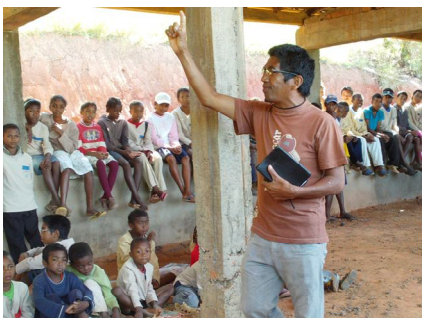

## **ELECTRICITY and CLEAN WATER**

It was years and years that we prayed for electricity. God answered our prayer through Mick & Elizabeth and Solfrid & Earling. They donated us solar panels, batteries and fridge. The electricity can be run almost 24hours a day for light and fridge except when we use sound system and pump clean water. You can imagine the joy of having ice cream home made by Clara

## **SCHOOL**

Praise God! The school has reached its 8 years and we were able to establish the 12 grade. There are 250 students. This is the generation whom we hope to bring transformation among the community. Clara and I are among the 22 teachers at the school. She teaches Sciences and I teach English. I realize that I need others to help me.

## **SEMINAR:** "How to overcome the poverty spirit"

This is a real powerful seminar. It is to challenge the participants ( about 1500 to 2500 a month) to be transformed inside to develop the outside. I tell them the truth; they grasp it and it will work inside of them to bring transformation

### **DRY FRUIT**

It took us all the year to build the dry fruit. It was a big challenge for us financially but God didn't abandon us and we were able to fix it the last month of 2011. Hopefully we will be able to dry guava professionally from April 2012

Thank you Martin & Karin! You will

### **CLARA and LOVING CARE CLINIC**

In town a nurse can get USD7.5 per wounds cleaning per person which lasts 30mn; At Loving Care Clinic Clara gets only 50cents. Our children asked her motivation. "Just love", she replied. She works day and night and gets almost nothing. Her satisfaction is to see patient cured and healed. I can see the problems of the community when we would leave out here one day.

### **Liana 15y.o**

Liana is taller than me at the moment. He is playing accordion as well as me and his grandpa. He is looking forward to receiving a drum as his birthday

### **Mamy 27y.o**

By God's grace Mamy has attended her Bible Core Course for 3 months. They were six, two boys and four girls. She learned specifically how to study the Bible inductively.

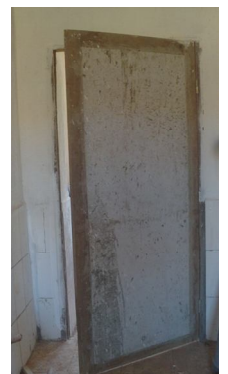

### **Mitia 13y.o**

Mitia is preparing her official secondary school exam in July. She gets up early to study and does her quiet time. She practises dances with the school artistic group 2 times a week.

### **Faly's dream**

It is always my joy to dream something. For months I am dreaming to make doors, ceilings, tables,... made by papercrete. I am on the process at the moment and plan to bring these products to the market in the middle of the new year.

*Your prayers and supports are really appreciated. We can say that without you it would be difficult for us to reach the goal and to bring transformation among the rural communities of Madagascar.*

*Have a Merry Christmas and happy New Year 2012!*

*May God bless you richly!*

*Faly – Clara – Mamy – Liana - Mitia*
