

# FALY'S FAMILY NEWS - July 2012

The school year 2011-2012 is over!

We praise God for this school. He provided us four new teachers during this year. We were able to transfer knowledge and good characters to 250 students. We do hope that in 5-10 years time they will be the leaders of the transformation of their own communities.

Please pray with us for more new teachers for the next school year 2012-2013.

If you know someone who is interested let us know!

Clara is enjoying working everyday in her small clinic with few patients and as Science teacher. She is very good in one and one evangelism. The impact is so great!

And look, she is starting to teach her grand son (Setra's son) how to use a stethoscope.

I (Faly) am teaching in 4 different DTS centers. I love talking about overcoming poverty. The root of poverty is so deep in Madagascar. The political situation is unstable, the insecurity reigns everywhere. We need your prayers and help.

## Mitia

She is preparing her official exam for being in high school. Because of the political problem her exam's date is postponed and it frustrates her. She has to go to school everyday for a month before her exam.

## Mamy

She is still learning Chinese at the moment. She has a burden for Chinese kids. She wants to share the Good News to these kids. If you have any connection or opportunity for her in China, please let us know.

## Liana

He has a long period of vacation because he doesn't prepare any exam. He passed to grade 11 for the next school year. He takes the opportunity to dance and drums class.

*Your prayers and supports are really appreciated. We can say that without you it would be difficult for us to reach the goal and to bring transformation among the rural communities of Madagascar.*
