MALAGASY MISSIONARIES gathering

Each 15th August, we organise an Annual gathering for Malagasy Missionaries. Last 15th August was special because of the graduation of 30 young Malagasy to reach the Unreached

Liana, 21 years old has passed to his third year of his Electronic & Computing University. He is always enjoying it and cannot wait to practise what he is learning at school. He plans to pursue his school in USA next year. Please, let him know if you have any suggestions.

Mitia, 19 years old also has passed to her second year of International Commerce. After her third year,

she wants to learn Gemmology and explore the gemstones of Madagascar.

ETHIOPIA

I was invited and supported by Africa Mission Partnership Initiative (AMPI) to attend an intensive training the all month of October in Ethiopia. We were 28 trainees from 15 nationalities. It was about how to relate to our beloved cousins, sons and daughters of Abraham, such as ourselves. I learned many things and just highlighted two things here:

a- I learned how to fill with God's vision instead of fear them, with love instead of hate them and with radical commitment instead of Indifference.

b- Even the challenge is so huge, vision, strategy and ministry belong to The Almighty God.

I thank you AMPI for your opened heart to support me and share all your experience with me.

I have been sharing what I have got from you in different places in Madagascar.

SCHOOLS: LPMI

We thank God for His grace. We appreciate all the teachers, parents and students for their each efforts.

The result of official exams for the last school year 2015-2016 was very good. 15/16 of Grade 12A and 10/15 Grade 12D passed their exams.

There are +250 students and 27 teachers this year. Even we have handed the headmaster over a local people from now on; Clara is still busy of the school and clinic.

We want to thank here, on behalf of the school, those who support the teachers, the children for their lunches and some for their school fees.

TEACHING & CONFERENCES

Even we have been teaching and training all around of the country, the needs are still huge. During this year 2016, I have been preaching 20 times in different local churches, leading five seminars and speaking on Youth Camps. Each time I move out of the capital city, I see the potentiality of Madagascar and the local resources. At the same time, I see the physical poverty and also the poverty mentality. I cry to God: « Anoint me Lord to bring these people out of this poverty ».

Next year 2017, I have already received many invitations to lead seminars in Antananarivo, Ampefy, Mahajanga, Vatomandry, Antsiranana, Antanambe and Toamasina. Please, remember us in your prayers.

KENYA

One of my classmate in Ethiopia is Martin Mumbola. He introduced to me and my Malagasy friend about Reconciled World.

Then, we are invited to attend the first

Truth Centered Transformation East Africa Forum in Kenya the end of January 2017. It's an opportunity to go and meet with and learn from others running the TCT program. My desire is that I will leave with new ideas and fresh inspiration to run the program in the bush of Madagascar.

I will be sponsored for the food and lodging during the event, but I need to pay my own flight. So, please pray with me as I trust God for it. In case, you want to partner with me about the TCT Forum, let me know.

You can learn more about the program at TCTprogram.org

Kenya is the first foreign country I went in 1982 when I did my training in Youth With A Mission, Mombasa.

DUBAI

As I was among the TOP 50 Global Teacher Prize 2015, The organiser invited me to attend the Varkey Teacher Ambassadors Summit in Dubai from 14th to 20th of March 2017.

They recognised the financial challenges I face, so they paid my round trip ticket flights and hotel accommodation for 6 nights.

This will be a special opportunity to get together for the first time, and to be an integral part of the Global Education & Skills Forum.

I have 3 extra nights staying there which I have to pay by myself. If some of you can connect me with friends, please let me know.

NIGERIA

The Rockefeller Foundation received more than 600 initial applications concerning the Cassava Innovation Challenge.

Thanks be to God, I was selected among the Top 50 shortlist. Because of the range of ideas among

shortlisted applications surpassed expectations. As a result, the Challenge organizers are extending the timeline for announcing the results of the TOP1 to the end of the first quarter of 2017. God's willing, this would be a great opportunity for Malagasy to bless Nigerians people. " Lord, Let your will be done!"

Your prayers and supports are really appreciated. We can say that without you it would be difficult for us to reach the goal and to bring transformation among the rural communities of Madagascar.
